

# REPEATED COURSE POLICY

Federal regulations limit the number of times a student may repeat a course and receive financial aid for that course. The following regulations apply to all students (regardless of grade-level):

*A student may receive aid to repeat a previously passed course (earned grade of D or higher) only one additional time. This includes course(s) transferred from another institution where a passing grade was earned.*

Federal regulation, passed means any grade higher than “F”, regardless of any school or program policy requiring a higher qualitative grade or measure to have been considered to have passed the course.

A student may receive Title IV funds (federal financial aid) for retaking a course they failed, regardless of the number of times the course was attempted and failed.

Retaking courses in which a “W” was received is not considered repeating courses.

Once a student has completed any course twice with a passing grade, they are no longer eligible to receive aid for that course.

If a student decides to retake a course that is not aid eligible, a recalculation of aid will be done to exclude the credits for that course.

This rule applies whether or not the student received aid for earlier enrollments in the course. All repeated courses affect financial aid [Satisfactory Academic Progress Policy](#).

A repeated course, along with the original attempt, must be counted as attempted credit hours. All students must successfully complete 66% of cumulative attempted hours by the end of each term.

Please note, the repeat course policy for financial aid differs from the [Academic Affairs' Repeating Courses Policy](#).
